

# Avenue

A workplace for all

## About Us.

Avenue is a day program alternative which empowers people with disability to engage in meaningful work tasks, earn revenue and develop their individual skills, regardless of their support needs.

Our participants (known as Team Members in our coworking spaces) have the opportunity to contribute to different microbusiness teams. We work with like-minded business partners who believe in building an **inclusive economy, whilst benefiting from a high quality service.**

When you partner with us 100% of the profit is passed on (in full) to our Team Members in a profit-share model. Team Members are then supported to spend this **how they choose.**

## Our Microbusinesses

We are always looking for opportunities for new and different types of work for our teams, so if you have a business need that isn't listed, we can work together to see how Avenue can meet it.

**Create opportunities for people  
with disability in your supply chain.**

“

"Avenue is integral to my business, I rely on them completely. They're fast and efficient and always willing to go the extra mile. I rely on them as an extension of my business. My customers also love that we work with such a great social venture and often comment on the cards the participants write and include."

"When I read about Avenue it just made sense; it really resonated with the core purpose of YEVU which is to support fair employment of all people, regardless of background, gender or ability. Our customers, who are very often conscious consumers, also love the fact that we have partnered with an Australian social enterprise and have a positive local impact."
